

CHILDREN'S SPEAK ABOUT THE NGUVU-STREET-FOOTBALL LEAGUE.

My name is Samyo Abnasis, I School out faith foundation School, I live in Juja in Kiambu County. I was interested in Nguvu Street-Football-league and I decided to join introduced by the sponsor of it. The league reached my expectation because the games were friendly, enjoyable and also energetic. I loved the games very much.

This is not my first day to join the league. It is my second time in this league. My team is called elephants and has seven players. We are already prepared for our first games and hope it will be fun.

This league helps us get educated through sports. It is meant to bring us together as one family of Juja.

I'm able to learn from this league and I have learnt how to play fairly and making new friends.

I have learnt to respect my fellow and obey the rules of the game.

Before and after every game, we talk and decide the formation of our games and how to play in a friendly manner.

The games in the first round are full of fun, I have learnt that discipline is the first priority in every game and I am waiting eagerly for the 2nd round. The games are very educative, and enjoyable.
